Supporting Colors & Print Colors

We use black and off-white for backgrounds, and patterns are mainly for carousel backgrounds. Tech-inspired patterns can be used, but the goal is always to keep the design simple, clean, and polished. We avoid overly complicated designs so that young designers can easily adapt while maintaining a functional, accessible style.

Primary Font

Aa

Montserrat

Secondary Font

HK Grotesk Pro or Space Grotesk

ABCDEFGHIJKLMNOPQRSTUVW
XYZabcdefghijklmnopqrstuvwxyz
1234567890!@#$%^&*

We use Montserrat for body text and Space Grotesk or HK Grotesk for headers, though Montserrat can also be used for headers.

Photography & Video

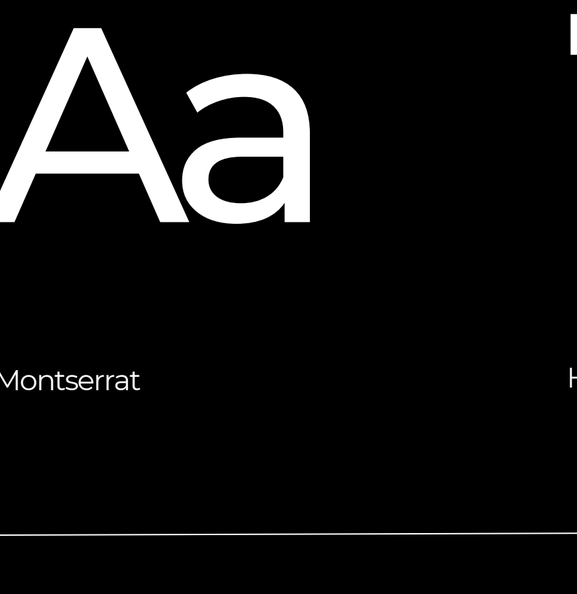

Illustration Elements

Our stock images typically feature a diverse mix of both male and female subjects, often portraying individuals from various backgrounds. We also include images with groups that represent a balanced combination of both genders, ensuring inclusivity and broad representation. We intentionally avoid using white people in our stock images to maintain a focus on diversity and representation of underrepresented communities.
